

Md Shale Newaj

MERN Stack Developer

Email: newaj.gra@gmail.com

Objective

Motivated and detail-oriented Junior MERN Stack Web Application Developer with strong expertise in converting pixel-perfect Figma designs into responsive, interactive web applications. Proficient in building scalable and secure back-end systems using Node.js, Express.js, and MongoDB. Committed to writing clean, maintainable code and creating intuitive user experiences. Eager to contribute to a collaborative development team, continuously learn emerging technologies, and apply innovative solutions to real-world projects.

Featured Project

I've included a link to my GitHub profile, where you can explore my repositories for a deeper insight into my coding practices, project structure, and problem-solving approach. Below, I've also highlighted a few featured projects that showcase my skills, creativity, and hands-on experience in full-stack web development.

● Alpha Clash [visit the website](#)

An interactive mini-game built from scratch using HTML, CSS, and JavaScript. Designed with a smooth gameplay experience and a fully responsive layout, ensuring compatibility across devices. Showcases strong front-end development skills and attention to user interaction and design.

● ToDo list [visit the website](#)

A simple and functional ToDo list application demonstrating basic CRUD operations (Create, Read, Update, Delete) using JavaScript. Built with clean and minimal UI, this project highlights core front-end logic, DOM manipulation, and event handling in a beginner-friendly structure.

● Blog Reading Website [visit the website](#)

● Simple Order management website for Restaurant [visit the website](#)

● Simple Portfolio Website [visit the website](#)
